Alexander Lloyd Osborne

Systems Administrator

(902) 405-0256 | aosborne.systems@gmail.com | @aosborne_sys

IT Systems Management & Security graduate experienced with managing both physical and virtual Linux and Windows environments and small to enterprise-level networks. Though I have limited real-world experience, I am passionate about the work I do and eager and willing to learn.

Technical Experience

Linux (Various flavors), Apache, MariaDB, MySQL, Cisco IOS, IOS XE and XR, DNS, DHCP, VPN, Firewalls, IDS/IPS, Windows Server, Active Directory, GPO, SCCM, SCO, VMWare, ESXi, Hyper-V, WSUS and LDAP.

Professional Experience

Systems Administrator II Intern | Eastlink (Bragg Communications)

Halifax, NS (2018 – Summer Work Term)

- Helped standardize a labeling convention by tracing and labeling virtual circuits as part of a network automation project.
- Worked with Cisco IOS, IOS XE and XR devices.
- Documented all changes made throughout my time with the company.

Education

IT Systems Management & Security | Nova Scotia Community College

IT Campus, Halifax, NS (2017 – 2019)

- Worked with small to enterprise-level networks in both physical and virtual environments.
- Learned to create, configure, network and harden both Linux and Windows systems.
- Worked in a team with 4 other individuals to create a MMORPG hosted on a remote CentOS 7 server.
- Designed mid-sized networks, network rack diagrams and building diagrams using Visio.

High School Diploma for Adults | Nova Scotia Community College

IT Campus, Halifax, NS (2016-2017)

- Academic Communications.
- Grade average of 96.

Workplace Hazardous Materials Information System (WHMIS)

Nova Scotia Community College | IT Campus, Halifax, NS (2017)

Occupational Health and Safety (OHS) | Nova Scotia Community College

IT Campus, Halifax, NS (2017)
